WORK EXPERIENCE

Google Developer Groups MRUH

Technical Lead

Aug 2025 – Present

Hyderabad, Telangana

- Led **technical workshops** and **collaborative AI/ML initiatives**.
- Mentored peers in building **AI-based applications** and understanding **modern technologies**.

Student Tribe

AI Data Annotation Intern

Feb 2026 – Mar 2026

Hyderabad, Telangana

- Labeled and curated **datasets** for **machine learning workflows** with high accuracy.
- Worked on improving **data quality** for **model training** and **evaluation**.
- Gained hands-on experience in **data pipelines** and **annotation for ML systems**.

EDUCATION

Malla Reddy University

Bachelor of Technology, Artificial Intelligence and Machine Learning (CSE)

2023 - 2027

Hyderabad, Telangana

- CGPA: 8.1/10**

PROJECTS

Document Extractor (Multimodal Document AI System)

- Built a layout-aware document extraction pipeline using OCR, LayoutLMv3, and LLMs to convert PDFs/images into structured JSON, achieving **~95% layout confidence**.
- Reduced unnecessary OCR usage by **100% on text-based PDFs** and designed a hybrid extraction system.
- Developed and deployed a **FastAPI + Docker service** with benchmarking (avg **~10s latency**) and failure handling for reliable real-world document processing.

Planify AI

- Designed an **AI-powered system** that converts **unstructured user inputs** into **structured, actionable workflows** using **LLM-based processing**.
- Built **data pipelines** for **parsing, interpreting, and organizing free-form text** into **machine-readable formats** with a focus on **information extraction and semantic understanding**.
- Implemented **adaptive scheduling** and **dynamic task restructuring**, simulating **real-world automation systems**.

Startup-Ops

- Developed a **full-stack platform** with **AI-driven insights, real-time analytics, and role-based access**.
- Integrated **intelligent data processing pipelines** to support **decision-making workflows**.
- Demonstrated **scalable system design** and handling of **structured + semi-structured data**.

ACHIEVEMENTS

- 1st prize** - Techpreneur hackathon, **IIT JAMMU** (National Level, 2026)
- 1st prize** - Yantra Yugam hackathon, **Malla Reddy University** (National Level, 2026)
- Led the development of rapid technical prototypes at **5+ national-level hackathons**.

SKILLS, RESEARCH & CERTIFICATIONS

- Research Publications:** Co-authored research paper on speech recognition using deep learning (CNN, RNN, LSTM, Transformers).
- Technologies and Development:** Google Cloud, LLM's RAG, REST APIs, Docker, CI/CD basics, Machine Learning, Deep Learning, PyTorch, Model Training, Evaluation & Model Deployment, Benchmarking, Git, Github.
- Skills:** Python; Generative AI; Prompt Engineering; Transformer-based models; Data Analysis; Analytical Thinking; Problem Solving & Critical Thinking; Leadership & Team Collaboration.
- Certifications:** Building LLM applications using Prompt Engineering – NVIDIA; Prompt Design in Vertex AI – Google Cloud; Generative AI with Diffusion Models – NVIDIA.
